

Measure Type	Name	Standard	PG&E Fuel Req	Rebate CZ 1, 4, 11, 12, 13, 16
Core	Attic Insulation	R-44 or better, Attics with existing insulation may qualify.	HVAC: Electricity and/or Gas	\$500
Core	Wall Insulation		HVAC: Electricity and/or Gas	\$500
Core	Floor Insulation		HVAC: Electricity and/or Gas	\$500
Core	Seal Ducts to 10% Leakage or Less	Existing ducts must have 20% leakage or greater at Test-In to be eligible.	HVAC: Electricity and/or Gas	\$200
Core	Seal Ducts to 5% Leakage or Less	Existing ducts must have 10% leakage or greater at Test-In to be eligible.	HVAC: Electricity and/or Gas	\$300
Core	Replacement Ducts and Duct Insulation	Replacement of existing systems only. Up to 2 systems (total) per home.	HVAC: Electricity and/or Gas	\$500
Core	Right-Size Return Duct(s) and Filter/Grille	Up to 2 returns (total) per home	HVAC: Electricity and/or Gas	\$100
Core	Heat Pump Space Conditioning	Up to 2 HVAC systems (total) per home, must have existing furnace, electric resistance heater, or heat pump.	HVAC: Electric AND gas (if fuel substitution)	\$500
Core	Cooling	Split AC or Packaged AC. Up to 2 HVAC systems (total) per home, must have existing central AC.	Electric	\$500
Core	Heat Pump Water Heater	Up to 2 water heaters (total) per home.	Electric AND gas (fuel substitution)	\$500
Core	Pool Pump	Replace single or two-speed pump with a variable speed pool pump. (primary in-ground pool system only; no Jacuzzis)	Electric	\$500

Better Measures				
Better	Gas Furnace	Sealed Gas Furnace. Up to 2 HVAC systems (total) per home, must have existing furnace.	Gas	\$500
Better	Smart Thermostat	EnergyStar certified Smart Thermostats. Must be Wi-Fi enabled. Up to 2 (total) per home with corresponding HVAC system(s).	HVAC: Electricity and/or Gas	\$125
Better	Deep Burried Duct Insulation	Bonus measure available in projects that both replace or seal duct systems and install R-44 attic insulation. Existing systems must be sealed to 10% duct leakage or less.	HVAC: Electricity and/or Gas	\$100
Better	Air Sealing	Air sealing can provide many benefits including improved comfort, improved indoor air quality, lower energy bills, and fewer condensation problems.	HVAC: Electricity and/or Gas	
		1) 15% building leakage reduction (pre vs. post)		\$300
		2) 30% building leakage reduction (pre vs. post)		\$500
Better	Gas Storage Hot Water Heater	Up to 2 water heaters (total) per home.	Gas	\$300

Best Measures				
Best	Sensi Predict	HVAC Predictive Maintenance System	HVAC: Electric	\$50
Best	ENERGY STAR Electric Clothes Dryer	3.94 or greater CEF	Electric AND gas (fuel substitution)	\$100
Best	Induction Range or Cooktop	At least 4 burners, must be installed during project period.	Electric AND gas (fuel substitution)	\$200

<b>Maintenance Measures</b>				
Maintenance	AC System Diagnostic	Detailed system diagnostic testing which includes checking the filter and verifying the unit is performing as expected.	HVAC: Electric	\$40
Maintenance	AC Refrigerant Charge	The system diagnostic must demonstrate refrigerant charge cycle test-in failing and test-out passing.	HVAC: Electric	\$50
Maintenance	Fan Delay Relay	Install an efficient fan delay to capture cool air left in your system after the A/C has turned off.	HVAC: Electric	\$70
Maintenance	ECM Motor	Replace your outdated motor with new technology for significantly improved efficiency and cost savings.	HVAC: Electric	\$250

<b>Kickers</b>				
Kicker	Electric Water Heater Control Kicker	Controls set to: A) Never enter Booster Heat Mode (i.e. "Eco-Mode) or B) Respond to Time-Of-Use Rates (TOU)	Electric	\$150
Kicker	Testing Kicker for Air Sealing, Duct Sealing and Duct Replacement	Available for Air Sealing, Duct Sealing and Duct Replacement measures only to verify leakage.	Electric and/or gas	\$150
